

Hotel Accommodation for OKAA09

Staying in Cambridge, as in the UK generally, is not particularly cheap, although recent falls in the value of sterling will help our visiting colleagues. The number of tourists who come to Cambridge is often reflected in the accommodations available. As always hotels fall into a wide range of price groups, and as a general rule the further out you go, the cheaper become the accommodations.

For all these hotels, the best way is to look for offers on the internet, where you can also see where they are in relation to the Fitzwilliam Museum.

The weekend of the end of the conference also coincides with the Late May Bank (Public) Holiday in England. **Early booking is thus advised.**

Prices are typical **lowest** ones in November 2008, and may not reflect the May 2009 prices. Where two prices are given, these are single/double rooms.
