## Second Circular

Dear CIPEG Members, dear Colleagues,

Your response to our invitation for this year's

### CIPEG Meeting in Hannover and Hildesheim September 6–8, 2008

was so overwhelming that almost twice as many of you registered as participants of the upcoming event as before. This may partly be due to the fact that here in Hannover and Hildesheim

**CIPEG will celebrate its 25<sup>th</sup> anniversary!**

With this Second Circular and its attached preliminary program we would like to send you additional information on how the three days in Hannover and Hildesheim will be organized. However, most important is that you should please let Christian E. Loeben ([Christian.Loeben@Hannover-Stadt.de](mailto:Christian.Loeben@Hannover-Stadt.de)) now know if you intend to participate, if your paper remains the same as announced, and – if not yet communicated – you might please let him know a final or new title of your presentation. All of this must be made known to him

**by August 15, 2008.**

Due to the fact that this year's CIPEG meeting will take place in two cities for the first time in its 25-year-history and the logistics this involves, we really need to know the precise number of participants by the above mentioned date. This is also the reason why we must limit participants **exclusively** to persons who have formally registered by this date. A later registration and/or participation will **not at all** be possible! Many thanks for your understanding. The final program will be sent to all registered participants before August 30, 2008.

Looking very much forward to seeing you soon in Hannover and Hildesheim.

Sincerely yours,

Dr. Claire Derriks
